

Utah Communications Agency Network Executive Committee Meeting September 15, 2009

Present:

Steve Proctor, Executive Director, UCAN

Brad Slater, Chairman

Doug Chandler, Department of Technology Services

Bryan Low, Logan Police Department

Dave Bennett, Utah County Sheriff's Office

Paul Burnett, Salt Lake County Sheriff's Office

Tina Roylance, Weber Area 911

Jeff Winterton, Wasatch County Sheriff's Office

Richard Ellis, State Treasurer

Steve McCarthy, Department of Transportation

Steve Foote, State Fire Chiefs

Lindsey Shepherd, South Jordan Police Dept.

Proxy's - Dearden, Crittenden and Williams

Jon Tait, Motorola

Jake Hunt, UCAN

Dave Shopay, West Valley Police Department

Andy Kukta, Salt Lake City Police Department

Brian Wolken, Provo City Police Department

Kevin McLeod, Weber County Sheriff's Office

Meeting was opened at 2:00 p.m. and conducted by Chairman Brad **Slater**.

1. Meeting minutes for July 21, 2009 were approved after corrections noted. Jeff **Winterton** made the motion to approve. Lindsey **Shepherd** and Dave **Bennett** seconded it. **Vote: All in favor.**

2. Steve **Proctor** discussed system modifications and changes from July to Sept. 2009.
 - We have updated 10 site leases for the next 5 years: Nelson Peak, Pisgah Peak, Beaver Mountain, China Meadows, Elizabeth Ridge, Medicine Butte, Herd Mountain, Echo Peak, Cal Mountain and Humphy Peak.
 - An issues came up recently with receipt of grant money. It concerns registering with the National Environmental Protection Agency (NEPA) when grant money is used for development of a public safety telecommunications facility. We have to provide NEPA with the coordinates, elevation, nearby areas fish and wildlife habitats, presence of special species, etc. They may not reimburse grant funding until this has been done. It's an added expense (\$4,500-\$5,000 per site) and a huge time delay.
 - Met with Rich County Commission to discuss possible communication facilities. They have asked for a contract and a proposal to co-locate at their facilities.
 - Received an email from St. George to join the UCAN network. They received a PSIC grant for \$2 million and are willing to commit \$1 million to develop the infrastructure to expand UCAN coverage and trade for service. We will submit recommended costs and sites at the next meeting.
 - Awarded 5 tower bids for Herd Mountain, Monte, China Ridge, Beaver Mountain and Nelson Peak.
 - Newton and downtown Logan sites are operational. Pisgah site is under construction.
 - Logan microwave loop is working and, when Pisgah is operational, we will gradually migrate the circuits to Logan on the microwave network to provide some redundancy and serve Cache Valley. Steve continued with the discussion and pictures.

2. Steve **Proctor** discussed system modifications and changes from July to Sept. 2009.
 - We have updated 10 site leases for the next 5 years: Nelson Peak, Pisgah Peak, Beaver Mountain, China Meadows, Elizabeth Ridge, Medicine Butte, Herd Mountain, Echo Peak, Cal Mountain and Humphy Peak.
 - An issues came up recently with receipt of grant money. It concerns registering with the National Environmental Protection Agency (NEPA) when grant money is used for development of a public safety telecommunications facility. We have to provide NEPA with the coordinates, elevation, nearby areas fish and wildlife habitats, presence of special species, etc. They may not reimburse grant funding until this has been done. It's an added expense (\$4,500-\$5,000 per site) and a huge time delay.
 - Met with Rich County Commission to discuss possible communication facilities. They have asked for a contract and a proposal to co-locate at their facilities.
 - Received an email from St. George to join the UCAN network. They received a PSIC grant for \$2 million and are willing to commit \$1 million to develop the infrastructure to expand UCAN coverage and trade for service. We will submit recommended costs and sites at the next meeting.
 - Awarded 5 tower bids for Herd Mountain, Monte, China Ridge, Beaver Mountain and Nelson Peak.
 - Newton and downtown Logan sites are operational. Pisgah site is under construction.
 - Logan microwave loop is working and, when Pisgah is operational, we will gradually migrate the circuits to Logan on the microwave network to provide some redundancy and serve Cache Valley. Steve continued with the discussion and pictures.

Utah Communications Agency Network Executive Committee Meeting September 15, 2009

Present:

Steve Proctor, Executive Director, UCAN

Brad Slater, Chairman

Doug Chandler, Department of Technology Services

Bryan Low, Logan Police Department

Dave Bennett, Utah County Sheriff's Office

Paul Burnett, Salt Lake County Sheriff's Office

Tina Roylance, Weber Area 911

Jeff Winterton, Wasatch County Sheriff's Office

Richard Ellis, State Treasurer

Steve McCarthy, Department of Transportation

Steve Foote, State Fire Chiefs

Lindsey Shepherd, South Jordan Police Dept.

Proxy's - Dearden, Crittenden and Williams

Jon Tait, Motorola

Jake Hunt, UCAN

Dave Shopay, West Valley Police Department

Andy Kukta, Salt Lake City Police Department

Brian Wolken, Provo City Police Department

Kevin McLeod, Weber County Sheriff's Office

Meeting was opened at 2:00 p.m. and conducted by Chairman Brad **Slater**.

1. Meeting minutes for July 21, 2009 were approved after corrections noted. Jeff **Winterton** made the motion to approve. Lindsey **Shepherd** and Dave **Bennett** seconded it. **Vote: All in favor.**

2. Steve **Proctor** discussed system modifications and changes from July to Sept. 2009.

Meeting was opened at 2:00 p.m. and conducted by Chairman Brad **Slater**.

1. Meeting minutes for July 21, 2009 were approved after corrections noted. Jeff **Winterton** made the motion to approve. Lindsey **Shepherd** and Dave **Bennett** seconded it. **Vote: All in favor.**

2. Steve **Proctor** discussed system modifications and changes from July to Sept. 2009.
 - We have updated 10 site leases for the next 5 years: Nelson Peak, Pisgah Peak, Beaver Mountain, China Meadows, Elizabeth Ridge, Medicine Butte, Herd Mountain, Echo Peak, Cal Mountain and Humphy Peak.
 - An issues came up recently with receipt of grant money. It concerns registering with the National Environmental Protection Agency (NEPA) when grant money is used for development of a public safety telecommunications facility. We have to provide NEPA with the coordinates, elevation, nearby areas fish and wildlife habitats, presence of special species, etc. They may not reimburse grant funding until this has been done. It's an added expense (\$4,500-\$5,000 per site) and a huge time delay.
 - Met with Rich County Commission to discuss possible communication facilities. They have asked for a contract and a proposal to co-locate at their facilities.
 - Received an email from St. George to join the UCAN network. They received a PSIC grant for \$2 million and are willing to commit \$1 million to develop the infrastructure to expand UCAN coverage and trade for service. We will submit recommended costs and sites at the next meeting.
 - Awarded 5 tower bids for Herd Mountain, Monte, China Ridge, Beaver Mountain and Nelson Peak.
 - Newton and downtown Logan sites are operational. Pisgah site is under construction.
 - Logan microwave loop is working and, when Pisgah is operational, we will gradually migrate the circuits to Logan on the microwave network to provide some redundancy and serve Cache Valley. Steve continued with the discussion and pictures.

- System expansion - We added 2 channels at Promontory (Weber County), 2 channels at Francis Peak (Davis County) and 2 channels at Logan Peak (Cache County) to meet the growing service requirements. We have funds to do the same in Utah County, but need to work on a few issues.
 - We have separated the CEBs in Summit and Wasatch counties to provide redundancy. They were sharing one CEB and one connection. It was changed at their request.
 - Installation is nearly complete on the four solar buildings. Work has been done at UCAN to save time and money.
 - We are scanning 10 years of paper records - including rebanding - and storing it on the network - many, many boxes.
 - Working to complete (on the Logan project) Beaver Mountain, Pisgah Peak (3rd simulcast system), microwave connectivity, propane fueled generator at Pisgah Peak and tune and test the network.
 - Steve continued with pictures and discussed sites the work to be completed.
3. Rebanding - The last change order has been approved. The final value of our contract is \$6.9 million to reband the entire network (all radios, all infrastructure, new radios, and equipment purchased for this project). Reconciliation will probably start next month.
 4. Nominating Committee Report/Chairperson Paul **Burnett** reported on the committee review of the Bylaws and related Steve **Proctor** has notified the Board that the election is imminent and when it will occur. On behalf of the committee, a courtesy notice was sent to four incumbents to inform them their positions were about to expire and the committee would be happy to nominate them if they so desired; namely, Kari **Sagers**, Lt. Jeff **Winterton**, Chief Lindsey **Shepherd** and Chief Steve **Foote**. All four would like to be nominated and will be. We received one request for the vacant Davis County position. Steve **Proctor** related we need a Bylaws adjustment to discuss the geographical representation for the new members. If Brian **Low** is going to represent Northern Utah, the Bylaws ought to state that. There is one vacant member for which we haven't representation, Southern Utah. The Bylaws should probably reflect that. Brad **Slater** asked if Davis County will provide a nomination and Tina **Roylance** said they would. They are narrowing it down. Brad **Slater** also restated the need to update or make changes to the Bylaws. Brad **Slater** asked Paul **Burnett** to continue working on the Bylaws, get on the agenda with his recommendations and merge with Steve **Proctor's** recommendation on expansion of the board to include the north and south areas of the state. Brad **Slater** thanked the Committee for their work. Steve **Proctor** related that, during the meeting, there can also be nominations from the floor for those geographical areas. There is still time for nominating from the floor. Richard **Ellis** will conduct the election.
 5. The St. George request concerns two cities to begin with; St. George City and Hurricane City coverage, not the whole county. We have a site in St. George but would need to add three simulcast sites and one IR site to provide adequate coverage, one backup site and networking to Salt Lake City to tie into the controller so it's a completely trunked network site. The other sites haven't been selected. Webb Hill will probably be the main site and tie into the St. George Police Department. Through their grant budget, they

Jeff **Winterton**, Chief Lindsey **Shepherd** and Chief Steve **Foote**. All four would like to be nominated and will be. We received one request for the vacant Davis County position. Steve **Proctor** related we need a Bylaws adjustment to discuss the geographical representation for the new members. If Brian **Low** is going to represent Northern Utah, the Bylaws ought to state that. There is one vacant member for which we haven't representation, Southern Utah. The Bylaws should probably reflect that. Brad **Slater** asked if Davis County will provide a nomination and Tina **Roynance** said they would. They are narrowing it down. Brad **Slater** also restated the need to update or make changes to the Bylaws. Brad **Slater** asked Paul **Burnett** to continue working on the Bylaws, get on the agenda with his recommendations and merge with Steve **Proctor's** recommendation on expansion of the board to include the north and south areas of the state. Brad **Slater** thanked the Committee for their work. Steve **Proctor** related that, during the meeting, there can also be nominations from the floor for those geographical areas. There is still time for nominating from the floor. Richard **Ellis** will conduct the election.
 5. The St. George request concerns two cities to begin with; St. George City and Hurricane City coverage, not the whole county. We have a site in St. George but would need to add three simulcast sites and one IR site to provide adequate coverage, one backup site and networking to Salt Lake City to tie into the controller so it's a completely trunked network site. The other sites haven't been selected. Webb Hill will probably be the main site and tie into the St. George Police Department. Through their grant budget, they

- System expansion - We added 2 channels at Promontory (Weber County), 2 channels at Francis Peak (Davis County) and 2 channels at Logan Peak (Cache County) to meet the growing service requirements. We have funds to do the same in Utah County, but need to work on a few issues.
 - We have separated the CEBs in Summit and Wasatch counties to provide redundancy. They were sharing one CEB and one connection. It was changed at their request.
 - Installation is nearly complete on the four solar buildings. Work has been done at UCAN to save time and money.
 - We are scanning 10 years of paper records - including rebanding - and storing it on the network - many, many boxes.
 - Working to complete (on the Logan project) Beaver Mountain, Pisgah Peak (3rd simulcast system), microwave connectivity, propane fueled generator at Pisgah Peak and tune and test the network.
 - Steve continued with pictures and discussed sites the work to be completed.
3. Rebanding - The last change order has been approved. The final value of our contract is \$6.9 million to reband the entire network (all radios, all infrastructure, new radios, and equipment purchased for this project). Reconciliation will probably start next month.
 4. Nominating Committee Report/Chairperson Paul **Burnett** reported on the committee review of the Bylaws and related Steve **Proctor** has notified the Board that the election is imminent and when it will occur. On behalf of the committee, a courtesy notice was sent to four incumbents to inform them their positions were about to expire and the committee would be happy to nominate them if they so desired; namely, Kari **Sagers**, Lt. Jeff **Winterton**, Chief Lindsey **Shepherd** and Chief Steve **Foote**. All four would like to be nominated and will be. We received one request for the vacant Davis County position. Steve **Proctor** related we need a Bylaws adjustment to discuss the geographical representation for the new members. If Brian **Low** is going to represent Northern Utah, the Bylaws ought to state that. There is one vacant member for which we haven't representation, Southern Utah. The other sites haven't been selected. Webb Hill will probably be the main site and tie into the St. George Police Department. Through their grant budget, they

would like to put 500 radios on the network. Other issues will need discussing. Steve **Proctor** proposed to move forward, return with cost and budget details, and provide a proposed letter of agreement at the next meeting. We learned about this a week ago. They were late in making a decision. Discussion commenced.

6. Rich County will be finished, but not this year. It is first on the spring agenda. Funding is in place through PSIC.
7. Other - Brad **Slater** made a suggestion to consider having the UCAN meetings at different locations to help accommodate users located farther away from the Wasatch Front. The expense may not justify it but we could do it once in a while. It would be an extra effort for our staff but there is a need to connect with our users and sometimes that connection is better made when we're on their "turf." It won't hurt to have a meeting in Cache County or Utah County and be closer to those, perhaps one or two a year away from UCAN. Give it some thought and let us know and as we establish scheduling for next year. No other issues noted.

Next Meeting: **October 20, 2009**

It would be an extra effort for our staff but there is a need to connect with our users and sometimes that connection is better made when we're on their "turf." It won't hurt to have a meeting in Cache County or Utah County and be closer to those, perhaps one or two a year away from UCAN. Give it some thought and let us know and as we establish scheduling for next year. No other issues noted.

Next Meeting: **October 20, 2009**

would like to put 500 radios on the network. Other issues will need discussing. Steve **Proctor** proposed to move forward, return with cost and budget details, and provide a proposed letter of agreement at the next meeting. We learned about this a week ago. They were late in making a decision. Discussion commenced.

6. Rich County will be finished, but not this year. It is first on the spring agenda. Funding is in place through PSIC.
7. Other - Brad **Slater** made a suggestion to consider having the UCAN meetings at different locations to help accommodate users located farther away from the Wasatch Front. The expense may not justify it but we could do it once in a while. It would be an extra effort for our staff but there is a need to connect with our users and sometimes that connection is better made when we're on their "turf."
